A few more thoughts from our patients

Mrs M.H said

“How glad I am that I walked into your clinic. I was in such pain with my back and legs I could hardly face each day. My treatment started immediately firstly weekly but now I only come in every six months for a check up. What a difference it has made to me. Thank you to Dr Walker and to his very friendly and helpful team.”

Mr M C said

“After being Sceptical about Chiropractic I am now a convert and have avidly recommended chiropractic care to all the people I know. Dr Walker and his team have helped me to live my life to the full again and my back is now better than I ever remember it. I am very grateful.”

Mrs R D said

“After having whiplash from a road traffic accident , I visited Camberley Chiropractic Clinic and the Drs did a great job at freeing up my neck which made my recovery quicker and less . Even my GP commented on what an amazing job Dr Walker had done on my neck. The staff are always pleasant, efficient and personable.”

A few thoughts from Mr D F

“From day one of my treatment I could feel a difference, especially in my posture. Although I was not going to be cured overnight I knew that if I followed the treatment suggested I would be rid of my pain. I am back riding my bike

without even a twinge. I would highly recommend Camberley Chiropractic Clinic”

Mr M H said

“I had a bad car accident and was told that I could no longer make my living as a Karate instructor. My GP offered me a host of drugs and maybe an operation at if the drugs did not help with the pain. I decided to seek another opinion. When I arrived at Camberley Chiropractic Clinic the atmosphere was so positive that I left feeling confident of a recovery. A few months later I was back competing again. If I had listened to my GP, I would not have been living my dream. Thanks Dr Chandhok.

Mr C T said

“On the day that I first saw Dr Chris Walker, I could not even sit up in bed, my back pain was so great. That was three months ago, today thanks to treatment and all the important rehabilitation care, I feel like a new man. I can see why Chris and Co came so highly recommended to me. Keep up the good work.”

Mr G S adds

“I can give nothing but praise for the treatments I have received at Camberley Chiropractic Clinic. On two occasions I was only able to walk with great difficulty due to the pain. On both occasions I have been able to resume my fairly active life .The whole practice has been extremely helpful and all aspects of the treatments have been dealt with confidence and consideration. I would recommend it to anyone.”

Mr W Sumner say

“I have endured some orthopaedics; I've been checked by Osteopaths and am forced to say my body is getting old.
But for treatment that is effective and a standard that's Olympic, then Camberley Chiropractors win the gold.

With sincere thanks from a 76 year old”

Ms L V said

"I was in quite a bad way with my back and after 3 recommendations from friends I visited Dr Prab Chandhok. My back is now better than it has been for years and the pain has completely gone. Dr Chandhok is very friendly, straight forward and has an excellent manner. Thank you Prab."

Mrs J E says

"I entered the clinic in pain, depressed and limited in mobility. Now at the end of my treatments, I am pain free, mobile and enjoying life again. I shall always be grateful to Dr Walker for his healing skills, care and attention and to the reception staff for their courtesy and warm welcome."

Mrs A W adds

"We all know life takes its toll on the body, so I have been seeing Dr Walker on and off for 10 years now. I have always received excellent care which has enabled me to continue with life in good health, without any restrictions to my everyday tasks. I think that chiropractic treatment is an essential part of my life. To walk into the clinic in pain and with little movement in the joints and to leave moving freely I think is priceless. I always recommend Camberley Chiropractic Clinic to anybody who tells me they have a back problem so that they can benefit from the help on offer. " Thank you all so much.

Mrs D S writes

"I would like to say a huge thank you for everything you have done. The treatment I received at Camberley Chiropractic Clinic has quite literally changed my life. The intense neck and back pain I have experienced for years has almost completely disappeared. I know that with an injury such as mine, which has got worse over the years since my car accident, it will take a lot of time and energy on my part too to solve this, but I thank god you diagnosed me and have diminished 90% of my pain and for this I am so thankful.

Your staff are so welcoming and professional, and the treatment so precise and successful.

I will certainly be recommending you to friends and family "

Mr S Wickes

"I have used Camberley Chiropractic Clinic for the last three years and they are a fantastic advert for their profession. I have a number of back problems, most recently a prolapsed disc and both the treatment and care I was provided with

was excellent. I have seen all three Doctors at the clinic and they are all professional and effective in their approach to improving an ailing body.

I would recommend others and have no hesitation in being an advocate of this clinic.”
